

PALASH DUMBARE

Senior Software Engineer | Mobile Tech Expertise | Android | Scalable Fintech Applications

+91-8369462134 p1dumbare@gmail.com <https://www.linkedin.com/in/palash-dumbare-456176111/>

Core Competencies

- Mobile Application Strategy & Lifecycle Ownership
- Scalable System Design & Architecture Thinking
- Performance Engineering & Optimization
- Technical Leadership & Engineering Governance
- Cross-Functional Stakeholder Management
- Release Management & Delivery Excellence
- Problem Solving & Production Issue Resolution
- Product Thinking & User Experience Optimization
- Innovation & Emerging Technology Adoption (AI/GenAI)
- Technical Decision-Making & Trade-off Analysis

Technical Skills

- Languages & Platforms:** Java, Kotlin, Android SDK, Swift (Basic), iOS (Exposure)
- Frameworks & Tools:** Dagger, Retrofit, Coroutines, Flow, Jetpack Compose
- Architecture:** MVVM, MVP, Clean Architecture, SOLID Principles, Design Patterns
- Cloud & Monitoring:** AWS, Google Cloud Platform, AppDynamics, Splunk
- Practices:** Agile/Scrum, Code Reviews, Effort Estimation, Team Mentoring, Unit & UI Testing

Accolades

- Recognized as **Gold Star Club Member** for outstanding performance and delivery excellence.
- Designed and presented a **Generative AI-based test case generation solution** to client CIO leadership.

Profile Summary

- Seasoned **Mobile Engineering Leader** with over **10 years** of experience in delivering **high-performance Android applications** across **banking, fintech, and e-commerce domains**, with strong emphasis on **scalability, security, and user-centric design**.
- Proven expertise in **end-to-end mobile application lifecycle management**, driving **architecture modernization (MVVM, Clean Architecture)**, **performance optimization**, and **technical debt reduction** within **agile delivery environments**.
- Demonstrated capability in **technical leadership, team mentoring, and engineering governance**, along with effective **cross-functional stakeholder collaboration** to ensure **timely, high-quality product delivery**.
- Strong exposure to **cloud ecosystems, application monitoring, and emerging technologies**, including development of **Generative AI-driven solutions** for **test automation and engineering efficiency**.
- Actively leveraging Generative AI and developer productivity tool like Github Copilot /c Claude to accelerate development.

Certifications / Learnings

- Pursuing PG Program in **Data Science and Artificial Intelligence**
- Google Cloud Digital Leader** – Google Cloud
- Generative AI and LLMs: Architecture and Data Preparation**

Career Timeline

Work Experience

Globant

Senior Software Engineer | Since Dec 2020

Projects: **HSBC Global Mobile Banking | First Direct Mobile Banking**

- Delivered high-quality Android features for global banking applications used by millions of users, ensuring scalability, security, and performance.
- Improved application performance and reduced technical debt through code refactoring and architectural enhancements.
- Increased application reliability by enhancing unit and UI test coverage.
- Led code reviews across distributed teams, enforcing coding standards and improving maintainability.
- Collaborated with Product, QA, Backend, and Design teams to accelerate release cycles and ensure timely delivery.
- Mentored junior developers, improving team productivity and technical capability.
- Boosted app performance by 20-30%** through optimized APIs, caching, and **Coroutines/Flow**, improving latency and UX.
- Delivered scalable Android modules for 1M+ users** with **98.9% crash-free sessions** using **MVVM/Clean architecture**.

**Contributor to meetKotlin
YouTube channel** (KSP &
Design Patterns).

Education

**PG Diploma in Mobile
Computing** | CDAC, Mumbai
| 2016

BE in Electronics – KDK |
College of Engineering,
Nagpur | 2014

WiseLap Technologies Pvt. Ltd.

Mobile Team Lead | Mar 2016 – Dec 2020

Projects: WiseLap E-commerce App / WiseBill Merchant App / POS Application

- ➊ Led end-to-end mobile application development lifecycle from requirement gathering to deployment.
- ➋ Built scalable e-commerce and merchant applications with consistent performance improvements.
- ➌ Managed and mentored a team of 3 developers, driving delivery excellence and technical growth.
- ➍ Implemented analytics and crash reporting tools, improving app stability and user experience.
- ➎ Collaborated with stakeholders to translate business requirements into technical solutions.

Personal Details

Date of Birth: 31st Jul 1993

Languages Known: English, Marathi, Hindi

Address: Pune, India 411057
